

**VICTORIA
PARK**

Approved Plant List

-Large Trees-

Live Oak

Scientific Name: *Quercus virginiana*
Native? Yes
Height: 40-80 ft
Spread: 60-100 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Medium drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance:
Wildlife: Birds
Butterfly Host Plant? No

Drake Elm

Scientific Name: *Ulmus parvifolia*
Native? No
Height: 35-45 ft
Spread: 35-50 ft
Soil pH: Acid to slightly acid 4.5-6.5
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Moderate
Wildlife: None
Butterfly Host Plant? Yes

Southern Magnolia

Scientific Name: *Quercus virginiana*
Native? Yes
Height: 40-80 ft
Spread: 60-100 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Medium drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Birds
Butterfly Host Plant? No

Red Maple

Scientific Name: *Acer rubrum*
Native? Yes
Height: 25-60 ft
Spread: 25-40 ft
Soil pH: Acid 4.5-5.5
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: Birds
Butterfly Host Plant? No

Slash Pine

Scientific Name: *Pinus elliotti*
Native? Yes
Height: 75-100 ft
Spread: 35-50 ft
Soil pH: Acid to slightly acid 4.5-6.5
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Birds
Butterfly Host Plant? No

Longleaf Pine

Scientific Name: *Pinus palustris*
Native? Yes
Height: 60-80 ft
Spread: 30-40 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: High
Light Range: Full sun
Salt Tolerance: Low to none
Wildlife: Birds
Butterfly Host Plant? No

Loblolly Pine

Scientific Name: *Pinus taeda*
Native? Yes
Height: 50-80 ft
Spread: 30-35 ft
Soil pH: Acid to slightly acid 4.5-6.5
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: Medium
Light Range: Full sun
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Pond Cypress

Scientific Name: *Taxodium ascendens*
Native? Yes
Height: 50-80 ft
Spread: 10-35 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Bald Cypress

Scientific Name: *Taxodium distichum*
Native? Yes
Height: 50-80 ft
Spread: 10-35 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Southern Red Cedar

Scientific Name: *Juniperus silicicola*
Native? Yes
Height: 40-50 ft
Spread: 10-25 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Birds, butterflies
Butterfly Host Plant? No

Sweetgum

Scientific Name: *Liquidambar styraciflua*
Native? Yes
Height: 40-100 ft
Spread: 40-60 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

-Accent Trees-

Heritage River Birch

Scientific Name: *Betula nigra*
Native? Yes
Height: 40-50 ft
Spread: 25-35 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: Low
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

Erect Bottlebrush

Scientific Name: *Callistemon rigidus*
Native? No
Height: 6-30 ft
Spread: 6-15 ft ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Sandy loam
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Butterflies, hummingbirds
Butterfly Host Plant? No

Weeping Bottlebrush

Scientific Name: *Callistemon viminalis*
Native? No
Height: 15-20 ft
Spread: 15-20 ft
Soil pH: Slightly alkaline, acidic
Soil Texture: Clay, loam, sand
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Citrus Species

Scientific Name: *Citrus* spp.
Native? No
Height: 12-30 ft
Spread: 15-25 ft
Soil pH: Slightly alkaline, acidic
Soil Texture: Clay, loam, sand
Soil Moisture: Well drained
Drought Tolerance: Moderate
Light Range: Full sun
Salt Tolerance: Low
Wildlife: Butterflies
Butterfly Host Plant? No

Japanese Blueberry

Scientific Name: *Elaeocarpus decipiens*
Native? No
Height: 30-40 ft
Spread: 30-40 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Unknown
Wildlife: Birds
Butterfly Host Plant? No

Loquat

Scientific Name: *Eriobotrya japonica*
Native? No
Height: 20-30 ft
Spread: 30-35 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Dahoon Holly

Scientific Name: *Ilex cassine*
Native? Yes
Height: 20-30 ft
Spread: 15-20 ft
Soil pH: Acid to slightly acid 4.5-6.5
Soil Texture: Any type
Soil Moisture: Medium drained to wet
Drought Tolerance: Medium
Light Range: Full sun, partial shade, shade
Salt Tolerance: Medium
Wildlife: Birds, butterflies
Butterfly Host Plant? No

Mary Nell Holly

Scientific Name: *Ilex 'Mary Nell'*
Native? Yes
Height: 10-20 ft
Spread: 10-15 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Sandy clay
Soil Moisture: Well drained to medium drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Nellie Stevens Holly

Scientific Name: *Ilex 'Nellie Stevens'*
Native? Yes
Height: 15-25 ft
Spread: 10-12 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Sandy clay
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Weeping Yaupon Holly

Scientific Name: *Ilex vomitoria*
Native? Yes
Height: 15-30 ft
Spread: 6-12 ft
Soil pH: Acidic, alkaline
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Birds
Butterfly Host Plant? No

Eagleston Holly

Scientific Name: *Ilex x attenuata*
Native? Yes
Height: 20-25 ft
Spread: 5-10 ft
Soil pH: Slightly alkaline, acidic
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Moderate
Wildlife: Birds
Butterfly Host Plant? No

Oak Leaf Holly

Scientific Name: *Ilex x conaf*
Native? No
Height: 15-20 ft
Spread: 6-9 ft
Soil pH: Slightly acidic
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: Songbirds, bees
Butterfly Host Plant? No

Crape Myrtle Varieties

Scientific Name: Lagerstroemia indica

Native? No

Height: 10-30 ft

Spread: 15-25 ft

Soil pH: Alkaline

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: High

Light Range: Full sun

Salt Tolerance: Moderate

Wildlife: Bees, butterflies

Butterfly Host Plant? No

Japanese Privet

Scientific Name: Ligustrum japonicum

Native? No

Height: 8-12 ft

Spread: 15-25 ft

Soil pH: Slightly acid to slightly alkaline

6.0-7.2

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: Medium

Light Range: Full sun, partial shade

Salt Tolerance: High

Wildlife: Birds

Butterfly Host Plant? No

Chinese Privet

Scientific Name: Ligustrum sinense

Native? No

Height: 10-20 ft

Spread: 8-15 ft

Soil pH: Acidic, alkaline

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: Moderate

Light Range: Partial shade

Salt Tolerance: Low to none

Wildlife: Birds

Butterfly Host Plant? No

Little Gem Magnolia

Scientific Name: Magnolia grandiflora

'Little Gem'

Native? Yes

Height: 20-40 ft

Spread: 8-12 ft

Soil pH: Slightly alkaline, acidic

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: Medium

Light Range: Full sun, partial shade

Salt Tolerance: Moderate

Wildlife: Birds

Butterfly Host Plant? No

Cherry Laurel

Scientific Name: Prunus caroliniana

Native? No

Height: 25-40 ft

Spread: 15-25 ft

Soil pH: Slightly alkaline, acidic

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: High

Light Range: Full sun, partial shade, shade

Salt Tolerance: High

Wildlife: Birds, bees

Butterfly Host Plant? No

Feijoa

Scientific Name: Feijoa sellowiana

Native? No

Height: 8-15 ft

Spread: 8-15 ft

Soil pH: Slightly acid to slightly alkaline

6.0-7.2

Soil Texture: Sandy clay

Soil Moisture: Well drained

Drought Tolerance: High

Light Range: Full sun, partial shade

Salt Tolerance: Low to none

Wildlife: None

Butterfly Host Plant? No

-Palms-

Cabbage Palm

Scientific Name: Sabal palmetto
Native? Yes
Height: 25-60 ft
Spread: 10-15 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Butterflies, birds
Butterfly Host Plant? No

Medjool Date Palm

Scientific Name: Phoenix dactylifera
Native? No
Height: 6-80 ft
Spread: 6-25 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds, bees
Butterfly Host Plant? No

Canary Island Palm

Scientific Name: Phoenix canariensis
Native? No
Height: 40-60 ft
Spread: 20-25 ft
Soil pH: Acidic, alkaline
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: High
Light Range: Full sun
Salt Tolerance: Medium
Wildlife: Bees
Butterfly Host Plant? No

Silver Date Palm

Scientific Name: Phoenix sylvestris
Native? No
Height: 6-80 ft
Spread: 6-25 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Sandy loam
Soil Moisture: Well drained, medium drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Pindo Palm

Scientific Name: Butia capitata
Native? No
Height: 15-25 ft
Spread: 15-25 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Bees
Butterfly Host Plant? No

Chinese Fan Palm

Scientific Name: Livistona chinensis
Native? No
Height: 20-50 ft
Spread: 8-15 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Sandy Loam
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

European Fan Palm

Scientific Name: Chamaerops humilis
Native? No
Height: 5-15 ft
Spread: 6-15 ft
Soil pH: Slightly acid to slightly alkaline
6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Pygmy Date Palm

Scientific Name: Phoenix robellini
Native? No
Height: 6-12 ft
Spread: 6-10 ft
Soil pH: Slightly alkaline, acidic
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Moderate
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

-Accent Shrubs-

Green Purple Lilies

Scientific Name: Crinum species
Native? No
Height: 3-6 ft
Spread: 3-6 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2

Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

King Sago

Scientific Name: Cycas revoluta
Native? No
Height: 3-10 ft
Spread: 4-8 ft
Soil pH: Slightly alkaline, acidic
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Partial shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

Saw Palmetto

Scientific Name: Serenoa repens.
Native? Yes
Height: 3-10 ft
Spread: 4-10 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type

Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: High
Wildlife: Butterflies, birds
Butterfly Host Plant? No

Bird of Paradise

Scientific Name: Strelitzia reginae
Native? No
Height: 20-30 ft
Spread: 15-20 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2

Soil Texture: Any type
Soil Moisture: Medium Drained
Drought Tolerance: Low
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: Bees
Butterfly Host Plant? No

White Bird of Paradise

Scientific Name: Strelitzia nicolai
Native? No
Height: 20-30 ft
Spread: 15-20 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2

Soil Texture: Any type
Soil Moisture: Medium Drained
Drought Tolerance: Low
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

Windmill Palm

Scientific Name: Trachycarpus fortunei
Native? No
Height: 10-25 ft
Spread: 6-10 ft
Soil pH: Tolerates any soil pH 4.5-8.0

Soil Texture: Any type
Soil Moisture: Well Drained
Drought Tolerance: Medium
Light Range: Partial shade, shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Lady Palm

Scientific Name: *Rhapsis excelsa*
Native? No
Height: 7-14 ft
Spread: 10-15 ft
Soil pH: Slightly acid to slightly alkaline
6.0-7.2
Soil Texture: Sandy loam
Soil Moisture: Well Drained
Drought Tolerance: Medium
Light Range: Partial shade, shade
Salt Tolerance: Low to none
Wildlife: Birds
Butterfly Host Plant? No

Cardboard Palm

Scientific Name: *Zamia furfuracea*
Native? No
Height: 2-5 ft
Spread: 5-8 ft
Soil pH: Alkaline, acidic
Soil Texture: Any type
Soil Moisture: Well Drained
Drought Tolerance: High
Light Range: Partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Coontie

Scientific Name: *Zamia pumila*
Native? Yes
Height: 1-5 ft
Spread: 3-5 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well Drained
Drought Tolerance: High
Light Range: Full sun, partial shade,
shade
Salt Tolerance: High
Wildlife: Butterflies
Butterfly Host Plant? Yes

Crinum Pygmy Date

Scientific Name: *Phoenix roebelenii*
Native? No
Height: 6-80 ft
Spread: 6-25 ft
Soil pH: Slightly acid to slightly alkaline
6.0-7.2
Soil Texture: Sandy loam
Soil Moisture: Well drained, medium
drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Chinese Fan Palm

Scientific Name: *Livingstonia chinensis*
Native? No
Height: 20-50 ft
Spread: 8-15 ft
Soil pH: Slightly acid to slightly alkaline
6.0-7.2
Soil Texture: Sandy loam
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

-Large Shrubs-

Cleyera

Scientific Name: Cleyera japonica

Native? No

Height: 10-15 ft

Spread: 8-10 ft

Soil pH: Acidic

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: Medium

Light Range: Full sun, partial shade

Salt Tolerance: Low to none

Wildlife: None

Butterfly Host Plants? No

Golden Dewdrop

Scientific Name: Duranta erecta

Native? No

Height: 4-18 ft

Spread: 10-15 ft

Soil pH: Slightly acid to slightly alkaline
6.0-7.2

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: High

Light Range: Full sun, partial shade

Salt Tolerance: Low to none

Wildlife: Butterflies, hummingbirds,
birds

Butterfly Host Plant? No

Florida Privet

Scientific Name: Forestiera segregata

Native? Yes

Height: 4-15 ft

Spread: 3-12 ft

Soil pH: Slightly acid to alkaline 6.0-8.0

Soil Texture: Sandy loam

Soil Moisture: Well drained to medium
drained

Drought Tolerance: High

Light Range: Full sun, partial shade

Salt Tolerance: High

Wildlife: Birds

Butterfly Host Plants? No

Gardenia species

Scientific Name: Gardenia jasminoides

Native? No

Height: 4-8 ft

Spread: 4-8 ft

Soil pH: Acid to slightly acid 4.5-6.5

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: Medium

Light Range: Partial shade, shade

Salt Tolerance: Low to none

Wildlife: Butterflies, bees

Butterfly Host Plants? No

Chinese Holly

Scientific Name: Ilex cornuta

Native? No

Height: 15-25 ft

Spread: 15-25 ft

Soil pH: Acid to slightly acid 4.5-6.5

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: High

Light Range: Full sun, partial shade

Salt Tolerance: Medium

Wildlife: Birds

Butterfly Host Plants? No

Gallberry

Scientific Name: Ilex glabra

Native? Yes

Height: 6-8 ft

Spread: 8-10 ft

Soil pH: Acid to slightly acid 4.5-6.5

Soil Texture: Any type

Soil Moisture: Wet

Drought Tolerance: Medium

Light Range: Partial shade

Salt Tolerance: Medium

Wildlife: Birds

Butterfly Host Plants? No

Florida Anise

Scientific Name: *Illicium floridanum*

Native? Yes

Height: 10-15 ft

Spread: 6-10 ft

Soil pH: Slightly alkaline, acidic

Soil Texture: Any type

Soil Moisture: Medium drained

Drought Tolerance: Medium

Light Range: Partial shade

Salt Tolerance: Low to none

Wildlife: Birds

Butterfly Host Plants? No

Yellow Anise

Scientific Name: *Illicium parviflorum*

Native? Yes

Height: 15-20 ft

Spread: 10-15 ft

Soil pH: Slightly alkaline, acidic

Soil Texture: Any type

Soil Moisture: Medium drained to wet

Drought Tolerance: Medium

Light Range: Partial shade

Salt Tolerance: Low to none

Wildlife: Birds

Butterfly Host Plants? No

Wax Myrtle

Scientific Name: *Myrica cerifera*

Native? Yes

Height: 10-40 ft

Spread: 20-25 ft

Soil pH: Tolerates any soil pH 4.5-8.0

Soil Texture: Any type

Soil Moisture: Well drained to wet

Drought Tolerance: Medium

Light Range: Full sun, partial shade

Salt Tolerance: High

Wildlife: Butterflies, birds

Butterfly Host Plants? No

Podocarpus

Scientific Name: *Podocarpus macrophyllus*

Native? No

Height: 30-40 ft

Spread: 20-25 ft

Soil pH: Acid to slightly alkaline 4.5-7.2

Soil Texture: Sandy clay

Soil Moisture: Well drained

Drought Tolerance: High

Light Range: Full sun, partial shade

Salt Tolerance: High

Wildlife: Birds

Butterfly Host Plants? No

Wild Coffee

Scientific Name: *Psychotria nervosa*

Native? Yes

Height: 4-10 ft

Spread: 4-10 ft

Soil pH: Slightly acid to slightly alkaline 6.0-7.2

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: Medium

Light Range: Partial shade, shade

Salt Tolerance: Medium

Wildlife: Butterflies, birds

Butterfly Host Plants? No

Formosa Azalea Sp.

Scientific Name: *Rhododendron formosa*

Native? No

Height: 8-10 ft

Spread: 5-10 ft

Soil pH: Slightly acid to slightly alkaline 6.0-7.2

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: Medium

Light Range: Full sun, partial shade

Salt Tolerance: Low to none

Wildlife: Butterflies, bees

Butterfly Host Plants? No

Silver and Green Palmetto

Scientific Name: *Serenoa* sp.
Native? Yes
Height: 3-10 ft
Spread: 4-10 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: High
Wildlife: Butterflies, birds
Butterfly Host Plant? No

Walter's Viburnum

Scientific Name: *Viburnum obovatum*
Native? Yes
Height: 8-25 ft
Spread: 6-10 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: Low to none
Wildlife: Birds
Butterfly Host Plant? No

Sweet Viburnum

Scientific Name: *Viburnum odoratissimum*
Native? No
Height: 15-30 ft
Spread: 15-25 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: Low to none
Wildlife: Hummingbirds, birds
Butterfly Host Plant? No

Feijoa

Scientific Name: *Feijoa sellowiana*
Native? No
Height: 8-15 ft
Spread: 8-15 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Sandy clay
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

Japanese Privet

Scientific Name: *Ligustrum japonicum*
Native? No
Height: 8-12 ft
Spread: 15-25 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Birds, butterflies
Butterfly Host Plant? No

-Medium Shrubs-

Glossy Abelia Varieties

Scientific Name: *Abelia x grandiflora*
Native? No
Height: 6-10 ft
Spread: 6-10 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Sandy clay
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: Bees
Butterfly Host Plant? No

Japanese Boxwood

Scientific Name: *Buxus microphylla*
Native? No
Height: 6-8 ft
Spread: 10-15 ft
Soil pH: Slightly alkaline, acidic
Soil Texture: Sandy loam
Soil Moisture: Medium drained
Drought Tolerance: Medium
Light Range: Partial shade
Salt Tolerance: Low to none
Wildlife: Butterflies
Butterfly Host Plant? No

African Iris

Scientific Name: *Dietes vegeta*
Native? No
Height: 2-6 ft
Spread: 1-2 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Low to none
Wildlife: Butterflies, birds
Butterfly Host Plant? No

Fountain Grass

Scientific Name: *Pennisetum setaceum*
Native? No
Height: 4-6 ft
Spread: 2-4 ft
Soil pH: Acidic, slightly alkaline
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun
Salt Tolerance: Unknown
Wildlife: None
Butterfly Host Plant? No

Green Pittosporum

Scientific Name: *Pittosporum tobira*
Native? No
Height: 8-12 ft
Spread: 12-18 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Sandy loam
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Birds
Butterfly Host Plant? No

Plumbago

Scientific Name: *Plumbago capensis*
Native? No
Height: 6-10 ft
Spread: 8-10 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun
Salt Tolerance: Low to none
Wildlife: Butterflies
Butterfly Host Plant? No

Dwarf Indian Hawthorn

Scientific Name: *Rhaphiolepis indica*
Native? No
Height: 2-10 ft
Spread: 2-6 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Fakahatchee Grass

Scientific Name: *Tripsacum dactyloides*
Native? Yes
Height: 4-6 ft
Spread: 4-6 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Butterflies
Butterfly Host Plant? No

Cardboard Palm

Scientific Name: *Zamia furfuracea*
Native? No
Height: 2-5 ft
Spread: 5-8 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: High
Wildlife: Birds, butterflies
Butterfly Host Plant? No

Coontie

Scientific Name: *Zamia pumila*
Native? Yes
Height: 1-5 ft
Spread: 3-5 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: High
Wildlife: Butterflies, birds
Butterfly Host Plant? No

Yaupon Holly

Scientific Name: *Ilex vomitoria*
Native? No
Height: 15-30 ft
Spread: 6-20 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Any type
Soil Moisture: Well drained to wet
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Butterflies, birds
Butterfly Host Plants? No

-Small Shrubs-

Lily of the Nile

Scientific Name: *Agapanthus africanus*
Native? No
Height: 1-3 ft
Spread: 1-3 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Partial shade, shade
Salt Tolerance: Low to none
Wildlife: Hummingbirds
Butterfly Host Plants? No

Cast Iron Plant

Scientific Name: *Aspidistra elatior*
Native? No
Height: 1-3 ft
Spread: 1-3 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Partial shade, shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

Holly Fern

Scientific Name: *Cyrtomium falcatum*
Native? No
Height: 2-3 ft
Spread: 3-4 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade, shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

Schilling Dwarf Holly

Scientific Name: *Ilex vomitoria*
'Schillings Dwarf'
Native? Yes
Height: 4-7 ft
Spread: 6-10 ft
Soil pH: Acidic to slightly alkaline
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: High
Light Range: Partial shade
Salt Tolerance: Moderate
Wildlife: Bees, birds
Butterfly Host Plant? No

Dwarf Shore Juniper

Scientific Name: *Juniperus conferta*
'Compacta'
Native? No
Height: 0.5- 1 ft
Spread: 4-6 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full shade
Salt Tolerance: Moderate
Wildlife: Birds
Butterfly Host Plant? No

Parsons Juniper

Scientific Name: *Juniperus chinensis*
'parsonii'
Native? No
Height: 2-3 ft
Spread: 4-9 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full shade
Salt Tolerance: Moderate
Wildlife: None
Butterfly Host Plant? No

Shore Juniper (varieties)

Scientific Name: *Juniperus conferta*
Native? No
Height: 1-2 ft
Spread: 6-10 ft
Soil pH: Tolerates any soil pH 4.5- 8.0
Soil Texture: Sand
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun
Salt Tolerance: High
Wildlife: Birds
Butterfly Host Plant? No

Big Blue Liriope

Scientific Name: *Liriope muscari* 'Big blue'
Native? No
Height: 1-2 ft
Spread: 1-2 ft
Soil pH: Tolerates any soil pH 4.5- 8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade, shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Evergreen Giant Liriope

Scientific Name: *Liriope muscari* 'Evergreen giant'
Native? No
Height: 1-2 ft
Spread: 1-2 ft
Soil pH: Tolerates any soil pH 4.5- 8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun
Salt Tolerance: High
Wildlife: None
Butterfly Host Plant? No

Muhly Grass

Scientific Name: *Muhlenbergia capillaris* 'Evergreen giant'
Native? No
Height: 2-3 ft
Spread: 2-3 ft
Soil pH: Acid to neutral 5.5-7.0
Soil Texture: Sandy, rocky
Soil Moisture: Well drained to medium drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Songbirds
Butterfly Host Plant? No

Compact Pittisporum

Scientific Name: *Pittosporum tobira* 'Compacta'
Native? No
Height: 2-3 ft
Spread: 4-6 ft
Soil pH: Slightly acidic
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: None
Butterfly Host Plant? No

Azalea Hybrids

Scientific Name: *Rhododendron azalea* 'hybrids'
Native? Varies
Height: 3-12 ft
Spread: 3-10 ft
Soil pH: Tolerates any soil pH 4.5- 6.5
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Partial shade
Salt Tolerance: Low to none
Wildlife: Butterflies, hummingbirds, birds
Butterfly Host Plant? No

Roses

Scientific Name: Rosas

Native? No

Height: 6-8 ft

Spread: 5-7 ft

Soil pH: Slightly acid 6.0-6.5

Soil Texture: Loam

Soil Moisture: Well drained

Drought Tolerance: Depends on the species

Light Range: Full sun

Salt Tolerance: Depends on the species

Wildlife: Birds, butterflies

Butterfly Host Plant? No

-Ground Cover-

Lily of the Nile

Scientific Name: Agapanthus africanus
Native? No
Height: 1-3 ft
Spread: 1-3 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Partial shade, shade
Salt Tolerance: Low to none
Wildlife: Hummingbirds
Butterfly Host Plant? No

Blue Daze

Scientific Name: Evolvulus glomeratus
Native? No
Height: 0.5-1 ft
Spread: 1-2 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Partial shade
Salt Tolerance: High
Wildlife: Butterflies, bees
Butterfly Host Plant? No

Day Lily Varieties

Scientific Name: Hemerocallis varieties
Native? No
Height: 1-3 ft
Spread: 1-2 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: High
Wildlife: Butterflies, hummingbirds
Butterfly Host Plant? No

Dwarf Japanese Juniper

Scientific Name: Juniperus chinensis 'Procumbens'
Native? No
Height: 0.5-1 ft
Spread: 5-6 ft
Soil pH: Acid, alkaline, neutral
Soil Texture: Sandy
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun
Salt Tolerance: Medium
Wildlife: Birds
Butterfly Host Plant? No

Aztec Liriope

Scientific Name: Liriope muscari 'Aztec'
Native? No
Height: 1-2 ft
Spread: 1-2 ft
Soil pH: Acidic to alkaline
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Mondo Grass

Scientific Name: Ophiopogon japonicus
Native? No
Height: 0.5-1 ft
Spread: 0.5-2 ft
Soil pH: Slightly acid to slightly alkaline 6.0-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Partial shade, shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Wheeler Dwarf Pittisporum

Scientific Name: Pittosporum tobira
'Wheeler's Dwarf'
Native? No
Height: 2-3 ft
Spread: 3-5 ft
Soil pH: Alkaline, acidic
Soil Texture: Sand, loam
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Partial shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

Dwarf Confederate Jasmine

Scientific Name: Trachelospermum
asiatic 'Minima'
Native? No
Height: 0.5-1 ft
Spread: 3+ ft
Soil pH: Alkaline, acidic
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: Medium
Wildlife: Hummingbirds
Butterfly Host Plant? No

Var. Confederate Jasmine

Scientific Name: Trachelospermum jas.
'Variegated'
Native? No
Height: 5-8 ft
Spread: 5-10 ft
Soil pH: Alkaline
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Medium
Wildlife: Hummingbirds
Butterfly Host Plant? No

Croton

Scientific Name: Codiaeum variegatum
Native? No
Height: 3-8 ft
Spread: 3-6 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Low
Light Range: Partial shade
Salt Tolerance: Low to none
Wildlife: None
Butterfly Host Plant? No

Bulbine

Scientific Name: Bulbine frutescens
Native? No
Height: 1-2 ft
Spread: 1-2 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: Medium
Light Range: Full sun, partial shade
Salt Tolerance: Unknown
Wildlife: Hummingbirds, butterflies
Butterfly Host Plant? No

Flax Lily

Scientific Name: Dianella caerulea
Native? Variable
Height: 1-2 ft
Spread: 1-2 ft
Soil pH: Acid to slightly alkaline 4.5-7.2
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun, partial shade
Salt Tolerance: Unknown
Wildlife: Birds
Butterfly Host Plant? No

Society Garlic

Scientific Name: Tulbaghia violacea

Native? No

Height: 1-2 ft

Spread: 1-2 ft

Soil pH: Slightly acid to slightly alkaline
6.0-7.2

Soil Texture: Any type

Soil Moisture: Well drained

Drought Tolerance: High

Light Range: Full sun, partial shade

Salt Tolerance: Low to none

Wildlife: Bees, butterflies

Butterfly Host Plant? No

-Turf-

Zoysia

Scientific Name: Zoysia japonica
Native? No
Height: 0.25-0.5 ft
Spread: 0.25-0.5 ft
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained
Drought Tolerance: High
Light Range: Full sun
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

St. Augustine 'Bitter Blue'

Scientific Name: Stenotaphrum secundatum
Native? No
Height: 8 in
Spread: 4 in
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No

St. Augustine 'Floratum'

Scientific Name: Stenotaphrum secundatum
Native? No
Height: 8 in
Spread: 4 in
Soil pH: Tolerates any soil pH 4.5-8.0
Soil Texture: Any type
Soil Moisture: Well drained to medium drained
Drought Tolerance: High
Light Range: Full sun, partial shade, shade
Salt Tolerance: Medium
Wildlife: None
Butterfly Host Plant? No
